## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 8-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In newly added claims 8 and 11, the recited structure is unclear as to whether the buried wire member actually contacts the common n-type regions and the common p-type regions adjacent the first and second gate electrodes. While claim 8 recites that the wire is formed in an opening that is located above these regions, it does not explicitly say that the wire makes contact with them. Similarly, in claim 11, it is not clearly recited that the wire makes contact with both the n-type and p-type regions.

This feature, as recited in claim 1, is assumed to be a critical part of the invention, and as such, should be explicitly recited.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 8-12 are further rejected under 35 U.S.C. 102(b) as being anticipated by Hill, of record, for the reasons given in the previous action, hereby incorporated by reference. Without the limitation discussed above, Hill would appear to meet the structural limitations of the claimed invention.

### ***Allowable Subject Matter***

Claims 1-4 are allowed.

Art Unit: 2815

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
